ILLiG 
CONSTRUCTION COMPANY Since 1919

The John Thomas Dye School

Illig Construction Company's partnership with The John Thomas Dye School spans over a decade.

The John Thomas Dye School Quick Facts

- Independent school founded in 1929
- K-6, 336 students
- 11 acre campus atop a hill in Bel Air overlooking the Pacific Ocean
- Nurtures intellectual, artistic, and physical potential in an environment guided by the 5 C's: **C**aring, **C**ommon Sense, **C**onsideration, **C**ooperation, and **C**ourtesy

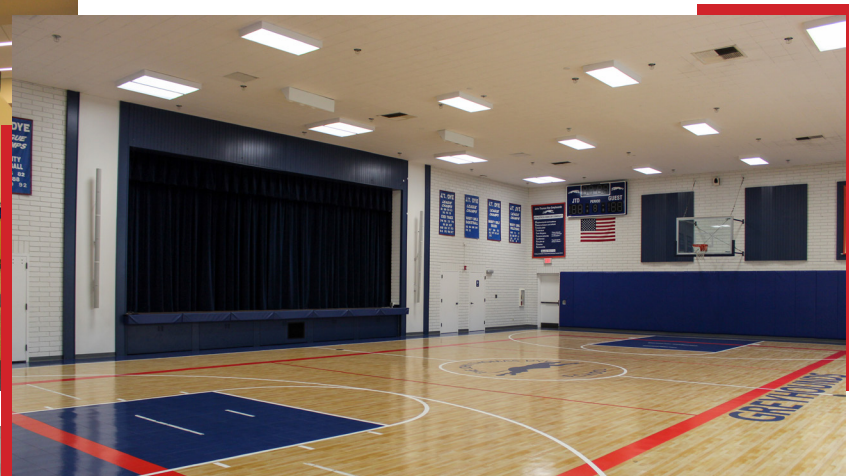

Beginning in 2008 with preconstruction services, Illig Construction completed two administrative buildings, a 16,200 SF academic building and a 20,000 SF three level parking structure. The partnership did not end there! Each year since 2014, Illig Construction has served The John Thomas Dye School with a myriad of summer projects to improve campus facilities.

Through a negotiated delivery method, campus improvement projects have included a library expansion and remodel; replacement of campus windows and doors; gymnasium and stage remodel with roof replacement; the John Dye Hall loft remodel for administrative offices and improvements of lower level classrooms; expansion of the MAC technology center; new site retaining wall and flag pole; and enhanced playground areas. With each summer project, Illig Construction delivered on-time for the new academic year and under budget.

When it came time to replace the campus flagpole, a creative solution was needed for delivery. The narrow, curvy streets of Bel Air posed a challenge to delivering the pole to the hilltop campus. Illig partnered with school administrators to plan and orchestrate a safe and unique team-building event with faculty and staff volunteers carrying the forty-foot flagpole from the base of the Bel Air hills to the hilltop campus. Longstanding relationships are based on trust and consistently earned by meeting and exceeding expectations. The John Thomas Dye School has bestowed Illig Construction Company the highest compliment—10 out of 10 client survey ratings with each project, and a lasting professional partnership!

"What makes Illig so special is their personal touch. No matter how small the project, Rita and her team deliver the same excellent client service to ensure that the end product meets Illig's high standards, a hallmark of their company for over 100 years."

- Rose Helm, Head of School, The John Thomas Dye School
